WORK EXPERIENCE

Frontend Intern

Wisho

06/2024 - Present

United Kingdom

Achievements/Tasks

- Designed and implemented a complete landing page using React, including a dynamic navbar, modals, forms, and buttons.
- Leveraged Spring Boot APIs to create dynamic cards with real-time data integration.
- Collaborated end-to-end with designers and product managers to ensure a user-centric design and seamless functionality.
- Gained proficiency in advanced React and CSS techniques, such as Flexbox, useState, effects, transitions, and typography.
- Hosted the application on CPanel with WordPress, gaining expertise in Git, build files, and deployment processes.
- Tech stack: React, Tailwind, APIs, Postman, Git, Github, hoppscotch, Flex box

Software Developer Intern

Tecnod8

10/2023 - 12/2023

Mandi, Himachal Pradesh

Achievements/Tasks

- Developed the TechnoD8 homepage from scratch, incorporating high-quality animations and a visually appealing background image.
- Implemented a hover-to-top button to improve user navigation. Enhanced the responsiveness of the navbar for seamless mobile viewing.
- Applied a user-centric approach to page design, prioritizing user experience and engagement.
- Created a React component for the About Us section, optimizing modularity and maintainability.
- Improved website search optimization by strategically incorporating business-relevant keywords.
- Tech Stack : Reactjs, NextJs, Html, Css, Bootstrap

PERSONAL PROJECTS

Chat Application

- Developed real-time chat application project which aims to showcase the integration of Socket.io, Express.js, and SQL for creating a dynamic and interactive communication platform. Users can securely authenticate, engage in real-time conversations, and access chat history.
- Tech stack: Socket.io, Express.js, SQL, HTML, CSS, DOM, Rest APIs

Goods Selling Store

- This application project aims to provide users with a seamless platform for selling and buying goods. By utilizing Express.js for the backend and SQL for data storage, the application ensures a secure and efficient experience. Sellers can post new items for sale or and buyer can browse for purchases and purchase items
- Tech stack: Express.js, SQL, Rest APIs, HTML, CSS, DOM

Social Media

- This social media platform project aims to create a vibrant and engaging space for users to connect and share content. By utilizing Express.js for the backend and MongoDB for data storage. Users can post updates or exploring other users post on the home page, the project highlights the integration of technologies to build a dynamic social media platform.
- Tech stack: Express JS, Mongo db, HTML, CSS, JS, Rest APIs

TicTacToe

- This Java Tic-Tac-Toe project with JFrame not only showcases my proficiency in Java programming but also my ability to create a visually appealing and functional graphical user interface. The combination of game logic, player input handling, and a well-designed GUI will result in a delightful and engaging Tic-Tac-Toe experience for users.
- Tech stack: JFrame, Java

CERTIFICATE

Full Stack Web Development With NodeJs Master Course coding blocks (07/2023 - 09/2023)

It was a detailed Master Course by Arnab Gupta sir on Full Stack Development with NodeJS Master Course it also has a section of socket.io which rewarded me with extra skill of Socket

Java Master Course | Crux (04/2023 - 10/2023)

It was a Master course for Java programming as well as Data Structures and Algorithms

Successfully cleared TCS codevita(Season 11) with Rank 1026 From 444K+ registrations across 94 countries
